1 of 1 review helpful Excellent for developing breath control By rocket number 9 Arthur Weisberg was my teacher s teacher I found his book to be extremely helpful to me although I play saxophone not bassoon Specifically it helped me develop my vibrato as well as generally helping develop much better breath control which seems to be THE essential skill in improving every aspect of woodwind playing I recommend this Meredith Music Resource This essential book for all performers teachers and conductors of wind instruments clears away the cobwebs of superstitions and the fixed ideas of what can and can t be done Written by one of the great wind virtuosos of our time the book covers resonance attacks and releases double tonguing vibrato breathing interpretation and more
