0 of 0 review helpful Great music and great exercises if you want no more By whitechapel Great music and great exercises if you want no more than an extreme two part work out The arrangements seem good and you will finish up with more wonderful Bach to play even if you only learn a single piece 1 of 1 review helpful This will be a great book as soon as I have progressed enough lear All 15 of Bach s Two Part Inventions have been transcribed for solo guitar Providing a wealth of technical and musical challenges these transcriptions are perfect for improving sight reading skills and can be ideal new additions to the performance repertoire of any serious musician
