0 of 0 review helpful This is a great book By Chris Francz I ve been a big fan of Black Flag since 1985 This book answered a lot of questions I ve always had and painted a well rounded picture of the history of the band and the scenes that it was a part of Sure there were some mistakes but none that I condsidered crucial like saying the Misfits were from CA I found myself gripped with the story and read it for hours Black Flag were the pioneers of American Hardcore and this is their blood spattered story Formed in Hermosa Beach California in 1978 they made and played brilliant ugly no holds barred music for eight brutal years on a self appointed touring circuit of America rsquo s clubs squats and community halls They fought with everybody the police the record industry and even their own fans and they toured overseas essential reading for any fan Rock Sound About the Author Stevie Chick has been writing about music for more than ten years contributing to such titles as MOJO The Guardian Kerrang Plan B Arena The Times NME
