own words interviews speeches and encounters Springsteen on Springsteen: Interviews, Speeches, and Encounters (Musicians in Their Own Words):

23 of 23 review helpful A different and refreshing take By Thomas T Trulis I love this book It is not a bio or just some quotes gathered here and there It is radio interviews speeches and other interviews with Bruce I think you have to be a Bruce fan to start with otherwise I don t know how interesting this material is But for a fan some priceless stuff For example his acceptance speech for the Rock a This collection is a great illustration of how when the appropriate subject is chosen no one on earth can say it better than the subject himself Impressively thorough and highly recommended Dave DiMartino RollingStone com
